TINFOIL WRAPPED AROUND POINTS

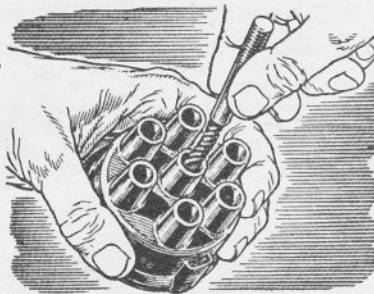

WRAPPING burned distributor points with foil will usually get you to the nearest service station or garage.

To remove a stud without damaging the threads with slip-joint pliers, run a nut down until it is flush with the top of the stud, centrepunch a mark at the threads, drill a small hole, and insert a pin. The pin will lock the nut so that you can unscrew the stud with a wrench.

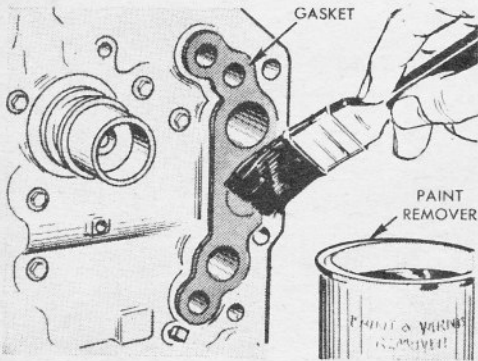

A rough idea of the number of miles of use your spark plugs have seen since they were last serviced can be obtained by measuring the gap across the electrodes. In the average plug the electrodes wear about .001 inch for each 1000 miles.

CUT END MAKES A BRUSH  
BRAKE-CABLE END

Corrosion can be cleaned from inside distributor cap terminals with a wire brush made from a discarded hand brake cable. Cut the cable near its end and use the threaded adjusting rod as a handle. Unravel a few strands, insert at the terminals, and twist.

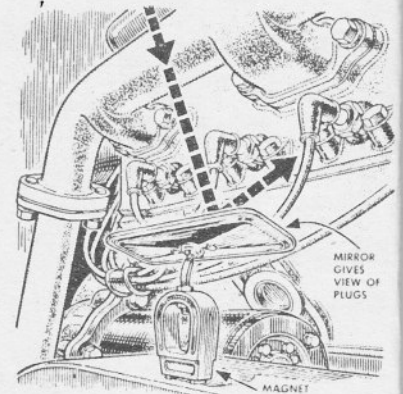

Removing gaskets cleanly when overhauling an engine is sometimes quite a problem. However, if you paint the gasket with ordinary paint remover and let it soak for a few minutes you'll find that the gasket will strip off cleanly every time.

50

When draining the engine, gear box and differential oils it is better to do so after the car has been for a run. Then the oil will be hot and will drain out completely.

Spring breakages can be caused by shock absorbers not operating satisfactorily.

An old rear-vision mirror attached to a husky magnet can help you see beneath the manifold when installing the spark plugs in new V8's. Place the magnet on the frame with the mirror aimed at the plug openings, and you can work without having to feel your way.

## N.P. FIRE BRIGADE CENTENNIAL

It's a long time since the town was treated to such a fine parade as that organised by the NP Fire Brigade to celebrate their centennial. The old appliances, like everything that the Fire Brigade has, were in excellent shape and bright in their coats of red paint. It was a parade that had taken a lot of organising but was well worth the effort from the public's point of view. **Above:** These must have presented a pretty sight when racing to a fire in the 1870's. **Below:** The NP Highland Pipe band led the parade. **Bottom:** Old hand appliances, drawn by two old hands. **Right:** 1917 Studebaker in tip top order. **Below, right:** Showpiece of the parade was this 1921 Tinling Stevens.

## HAWERA QUEEN CARNIVAL

Hawera's Whirlpool Queen Carnival has ended, and very successful it was too. As one business man told us, "Hawera has been drained", and for a very good cause too. It won't be long now before that town can have a really first-class swimming pool, thanks to the efforts of the various princesses and their committees. Above: Winner of the queen carnival was Jennifer McCarten. Above, right: Second in the event was Jillian Schollum, the Commerce Princess. ## TARURUTANGI W.D.F.F. BIRTHDAY

The Tarururangi Hall was filled with local residents for the 35th birthday of the W.D.F.F. The celebrations took the form of a dance and social, enjoyed by everyone. What we saw of it was evidence of the friendliness and sociability of the country people. They certainly know how to organise an evening for every member of the family. **Above:** Here's some of the hard-working executive at the cutting of the cake ceremony. ## CHALLENGE BOWLS

The closing night of the Vogeltown IBC was a real good night, and included a challenge bowls match between Les Harris, secretary of the North Association and Harold Brown, president of the Central Division. ## T.A.B. GOLF TOURNAMENT

There was much hilarity on the Eltham golf course for the annual TAB staff golf tournament. True, the rain spoiled part of the day's activities, but rest assured that a good time was had by all. Scores were added up on the tote, and as usual, the odds weren't as good as they should have been. **Above:** Four wet wenches, Mesdames Ngaire Cameron, Gyde, Guthrie and Muriel Abraham. **Left:** Four more, but not quite so wet, Mesdames Allen, Yardley, Johnston and Blackstock. **Below, left:** The fourth one of this foursome fell by the wayside. ## TOP MARKS TO HIGHLAND MUSIC FESTIVAL

Of the dozens of music festivals that we have seen and photographed, this one at the Highlands Intermediate School rates the best ever. There must be more instrumentalists and good voices at this school than any other in the country. A large slice of credit must go to the teachers for the training given to the children. Above: The combined class orchestras contained more instruments than a symphony orchestra, and they performed particularly well too. Below: The combined Form I and II choir with vocal soloists Kim Martin and John Simmonds at right. Bottom: The school massed choir and orchestra provided music to everyone's taste, and we feel sure it was enjoyed by all.

Another very popular pastime at the Highlands School is Scottish Country Dancing. Here the school club dances one of three items, above. Highlight of the evening's entertainment was the operetta, "Hans Christian Andersen". Never before at a school festival have we seen the audience applauding so long and loud that the actors had to take two curtains. This was the brightest and most musical of any yet seen. The pictures below and at bottom give some idea of the number of children involved in this very enjoyable production....many times more lively and interesting than some of the TV programmes.

## FIRE PREVENTION WEEK AT WAITARA

The Waitara Fire Station was a hive of industry during the recent Fire Prevention Week, with hundreds of children calling to see the fine exhibition that Chief Bill Terrill had provided. It had taken a full year to collect some of the exhibits, some coming from the USA, while others were collected from all over New Zealand. Our photographer called when a party of Brownies and some interested boys were touring the station, and we feel that this was a worth-while exhibition and very educational as far as the children were concerned. Above, left: This was the scene outside the station...a grave of the man who smoked in bed. Above, right: Here Bill Terrill shows the children the latest in mouth-to-mouth resuscitation. ## MAGNIFICENT ROSE SHOW

More than 500 roses were entered for the Taranaki Rose Society's annual show in the Whiteley Hall, NP, recently. Despite the fact that the week before the show the weather had been simply disastrous, the quality and standard of blooms was higher this year than it had been for many years. With increased membership, and more enthusiasm in the society, this is undoubtedly one of the best floral shows in the province. Above: Part of the very large crowd that attended. Below: Champion bloom of the show "June Park" was grown by Mr O.Finer, NP. Right: This branch of bloom was a real picture and admired by many. Below, right: These six roses won first prize in their section for Mr P.H.Dickson.

Among the 500 blooms on show at the Taranaki Rose Society's show were blooms of every colour and size. While walking round the displays, we felt that each bloom was better than the last we looked at, but that was not the case, as all the blooms were of the highest quality. Above, left: First prize in the Arrangement Section went to Mrs Luckin for this very attractive display. Top, right: Here we see that each bloom is of prizewinning quality, and attracted much attention. Above: Almost all the visitors, of which there were many, had to have a second look at some of these exotic roses. Left: Perhaps the most colourful display came from the Hempton Rose Gardens. At this time of the year at its best, and well worth a visit.

## INTER-COLLEGE SHOOT

Sharpshooters!.....Cripes, these boys from the high schools taking part in the annual inter-college shoot at Rewa Rewa were certainly on the target. Young eyes and steady hands of course helped, but the lads certainly were good. This competition was won this year by the Francis Douglas College with a total of 645 points. Above: At the butts the boys take steady aim. Below: Getting the results through. Right: There was one with glasses watching the bulls. Below, right: In charge of the competition was WO(1) W. S. Heath.

FIRE BRIGADE COMPETITIONS

# FIRE BRIGADE COMPETITIONS

The New Plymouth Fire brigade's recent centennial celebrations included a competitions day on the Central School grounds, when every brigade in Taranaki took part. Here the Opunake brigadesmen wait for the water during one of the competitions.
