## Uruti Sports Carnival Was Successful

With a full day of chopping, cycling and athletic events, the annual Uruti Carnival was again well patronised and highly successful from the organisers' point of view. Though the ground is not up to Pukekura Park standard, the competition is nevertheless keen. Competitors come from most parts of the province, and for the chopping events, they come from further afield. Some of the chopping events were a joy to witness, with top-class choppers competing for the prize money.

Cyclist George Wharehoka took to his scrapers for the athletic events and did very well too.

## Vintage Car Club Formed

Yet another new club has been formed in New Plymouth. This is a club which collects and renovates vintage cars. At the present moment there aren't many cars in the club, due to the shortage of these early models, but if any of our readers have got any old cars tucked away in an old shed, drop us a line, we'll be glad to pass the information on to the people concerned. The newly-formed club recently held a rally, with guests with their old cars from Wanganui helping to make the day a decided success. Some of these early models have to be seen to appreciate the work that goes into renovating them. They are a credit to the owner's patience and skill with tools.

Line-up of some of the old faithfuls

With cars from the Wanganui club attending the newly-formed New Plymouth Vintage Car Club's first rally, it was a case of success from the word go. Not only did the car enthusiasts gather for this event, but a lot of cameramen were also there to record it. We summed up that before one of these rallies, there must be about a ton each of Brasso, boot polish and elbow grease used to get these well-looked-after cars into the shining condition that they were.

Top: Camera enthusiasts had a field day as the cars moved forward in this inaugural rally.

Above, left: Mr W.Connor in his 1923 bull-nose Morris Cowley. This car is in tip-top order and considerably quieter than some of the more modern cars.

## Glider Over Taranaki

For a thrill that is something out of this world, we would suggest a trip in a glider. Our photographer was privileged to take a short hop in this machine, and the feeling as one glides smoothly about the heavens is something that has to be experienced to be believed. We would heartily recommend this form of flying, even to the squeamish. It is a wonderful feeling just cruising in a completely silent world.

Aloft in a silent and serene world

Above: Something new to the skyway of Taranaki can be seen most week-ends, when members of the New Plymouth Glider Club take to the air with their new glider. Here, surely, is the poor man's way of getting about the sky. Our experience of it, is that it is something quite different from conventional flying. It appears that one is suspended in the heavens, without any sound whatever. Almost like a gliding bird. If you feel like a flight, just hop out to the airport. The Glider Club, we feel sure, will accommodate you.

## Taranaki Croquet Championships

Played at the West End Croquet Club, the Taranaki championships were well patronised, providing some excellent croquet by the competitors. The weather put on its best behaviour for the tournament and the greens were in excellent order, considering the excessively dry spell that the province had been experiencing. These conditions naturally made the greens fast, and suitable for the high standard of croquet witnessed.

### Thrills On Water Skis

We took our camera down to Ngamotu beach recently, and got some photographs of the antics and thrills enjoyed by members of the New Plymouth Water Ski Club. There is no doubt that this is one of the most thrilling of sports, besides being one which requires a lot of training and skill to perfect. It is with a sense of admiration that we envy these people and their sport. Take a look at the top series of pictures... First, you've got to be water-borne, then you have to climb up to the shoulders, then, to hang on with your toes, and all this while travelling at a fair bat. It looks as if the last part is the most comfortable, what one might call an armchair ride. Performers of this feat were Brian Benton and Jan Sutherland.

For the thrill of a lifetime, there's nothing to beat the water toboggan, ridden by Jan Sutherland and Marion Sharpe.

Now that the days are getting cooler and considerably shorter, summer sports seem to be on the wane. Not so with the water ski people. They are out at every opportunity, performing and perfecting their feats on water skis.

## Taranaki Open Pairs

After a wet start, the Taranaki Open Pairs was finalised recently, when two country teams, one from Okato and the other from the Tarata club, fought a thrilling and closely contested final. The winners were Mesdames A.Campbell and F.Mackie, of Tarata, and their win was made more meritorious by reason of the fact that their club's playing strength is only nine. The runners-up, Mesdames K. Hickford and M. Clemance of the Okato club, played superb bowls, but were beaten by a better pair on the day's play.

The weather was most unkind to the New Plymouth and district Brownies, when they recently held their annual Field Day. But it did not completely wreck the day, as provision had been made for the event to be held indoors at the Agricultural Hall, should the weather be at all doubtful. It was far more than doubtful. It rained heavily most of the day. Despite this, the Brownies had a great day of games and competitions.

## Opunake Picnic Racing At Pihama

Despite the fact that there were numerous events taking place all over the province, the Opunake picnic race meeting at Pihama was well supported. Not only was the public support very good, but the support received from horse owners was far beyond expectations. Fields were interesting and the racing was of a very high standard. The future of this racing day, organised by the local Jaycees, seems assured for many years to come.

### New Landmark

Yet another landmark to grace the skyline of the city is the modern steeple of the Whiteley Methodist Church, now fast taking shape. The building is growing apace, with a marked difference each day. This ultra-modern steeple will be in direct contrast to St. Andrew's Church, just across the road.
