## BLOOD SWEAT & TEARS THIS MONTH

Blood Sweat and Tears will be performing in this country this month.

The group that we will see however will be a much changed one from those chart stopping days of their hits, 'Spinning Wheel' and 'And When I Die'. Blood Sweat and Tears have undergone many personnel changes including David Clayton-Thomas, their one time lead singer who is now solo.

However, the band are still producing that fantastic big band brassy sound that they are renowned for and it should be a great show.

Also in New Zealand this month (Auckland and Christchurch only) for concerts is Nana Maskouri.

## CLAPTON IS BACK

After three years in retirement, Eric Clapton is back.

Clapton is about to record a new album in America and also to form a new band which it is believed will include Carl Radle.

Eric Clapton is also talking of tours of both America and England, as a solo artist.

## BIG GOUGH

Ebony, who had a monster hit in New Zealand with 'Big Norm', have rehased the words somewhat, substituted Gough (Gough Whitlam) for Norm and released the song in Australia.

Hope the guys see some action across the Tasman with their single.

## NEW ALBUMS

THE STING.....Sound Track.....MCA 7220.

It has been said that 'Ragtime' will make a huge comeback as a direct result of this film.

Be that as it may, the film is now screening in Auckland and getting rave comments from everyone who has seen it.

One track, 'The Entertainer' has already been released as a single and gets a lot of airplay on radio. The whole set has a honky tonk - ragtime feel to it and this has been done on purpose. It was felt that this type of material would best convey the feel of the period in which the film is set, namely the 1930's.

DOBIE GRAY.....Loving Arms.....MCA 7142

This guy has to be the most exciting new contemporary balladeer to be recorded in the last couple of years. His voice has a warm and sincere quality and his delivery is in a relaxed and easy style. High spots on this, his second album are... Good Old Song, Reachin' for the Feeling, There's a Honky Tonk Angel and Loving Arms. Dobie will find an ever expanding market for his work for he certainly has what it takes.

DONOVAN.....Essence to Essence.....Epic 474 163

After a long absence, Donovan is back again. This is actually his second album on the comeback trail and it could be loosely described as mellow, soft and gentle. Donovan has not made the impact he should have with his new work. He has a valid statement to make on his new songs. With maturity, Donovan's work has a more realistic approach. His message may be the same, peace love and happiness but his approach to it has changed.

## RESULTS OF STAR TREK QUIZ

Readers must have found our Star Trek Quiz a little difficult for we did not receive the number of entries that we had hoped for. Of the 46 entries that we received, only one was answered 100% correctly.

The correct entry was by Craig Houston of New Plymouth.

There were some swept up machines entered but those carrying the least weight seemed to do better.

Man power for a racing start.

## TROLLEY DERBY

Pukekura Lions organised the recent 1974 Taranaki Trolley Championships which were held at Borrell Avenue in New Plymouth. The event was sponsored by I.W.D. and the various races saw quite a large number of entries. In fact we don't remember ever having seen quite so many trolleys in one place before.

The words of encouragement from Dad are over and they're on their way.

## Readers Write

Sir,  
I have enjoyed reading your magazine for many years and like your change, except I am sorry to say, don't like the quality of the paper. But I for one will still be a regular reader.

Irene - Hamilton.

*We would have preferred to use higher quality paper on the magazine too, but the recent price rises in the cost of paper makes this impossible.....Ed.*

Sir  
Hardly a month goes by when we don't hear or read about the destruction of yet another old building in New Plymouth.  
This is done in the name of progress, yet our heritage is being torn up for firewood to be replaced by yet another shapeless modern building.

While I realise that new buildings are essential, surely more consideration could be given to retaining at least some of the grand old buildings of an earlier age and restoring these.
