MAD HATTERS' CABARET

The Young Farmers-Country Girls Club recently held a "Mad Hatters" cabaret evening at the Mangorei Hall. As can be seen, the hats were quite crazy — everything from a pop-up toaster to a hen's nest. One girl's hat even had an elaborate model of an oil rig called Maui. Now that's really topical.

NOW SOUND

SHONA LAING ON AUSTRALIAN CHARTS

New Zealander singer Shona Laing has had her hit of a short while back "1905" released in Australia and the disc is already rating on some Australian charts.

This puts Shona in the same class as a small band of New Zealand entertainers that includes Max Merritt and the Meteors, Allison Durbin and the Avengers, who have been featured in Australian record charts. It is a fact that very few New Zealanders ever make the Australian charts, though hundreds of our entertainers make the trip across the Tasman and work in the Australian entertainment industry. Shona's feat is more remarkable as she is not even working the Australian circuit.

In addition to "1905", Shona Laing's more recent hit "Show Your Love" is being released in Australia and interest in her has also been expressed from the much larger American music industry.

Shona has now left school to concentrate on a full-time musical career.

STUDIO ONE CHANGED

Studio One is to be changed. Well, the show has had an excellent run with an increasing interest by the public over the years. In fact, you could say that the show has never before been quite as popular and if New Zealand had a proper T.V. rating system, Studio One would be one of the contenders for the title of 'Most Popular Programme.' So why the axe?

Actually, it is not so much a matter of axing the show but of making major changes in the next series.

Producer Chris Bourne says that radical changes have been made to the format and the system of a four judge panel is to be changed. Bourne finds the latter particularly unsatisfactory and says that the judging depends too much on those four people.

So we all look forward to the next Studio One series with greater interest than before, if only to see how the changes affect the programme.

SHORT SNORTS

Have reason to believe that Australian star Johnny ('Sadie, the Cleaning Lady') Farnham is to tour New Zealand again this summer . . . And that Leon Russell will also be heading to New Zealand. Now that will be some tour. Big question is, who will Russell bring with him as backing musicians? . . . Procul Harum in Australia a short while ago . . . Alice Cooper is to embark on a motion picture career in addition to his musical pursuits . . . Davy Jones of Monkee fame is back on the road, and heading down under . . . David Cassidy

Shona Laing

is also coming to this side of the world. Harry Miller's organisation is bringing him to Australia and, though it has not been stated definitely, that will probably include New Zealand as well . . . Jethro Tull very unhappy about recent receptions to their Passion Play and talk of quitting because of it. Well, that's ridiculous. No good band (and Tull are excellent) talk of quitting just because they don't get rave notices over one part of their career. Hell, Deep Purple have had it up and down all the time they have existed and at present it is particularly rough for them, but quitting, no, never . . . John Rowles back in New Zealand for a holiday. Nice to have you back again, John . . . Now Sound readers who have written to the writer and expressed their opinions on who should get the various Now Sound Awards this year are thanked. We appreciate your comments and would like to hear from still more of you. To refresh your memory, Now Sound Awards are made in both International and New Zealand sections in each of the following categories . . . Male Singer, Female Singer, Group, Most Promising New Artist or Group, Single of the Year, Album of the Year. Write and tell us who you think should receive these awards. Write to: Now Sound Awards, P.O. Box 427, New Plymouth. . . I am told that the show "Jesus Christ Superstar" will be playing this summer in several New Zealand centres . . . Thought Suzanne's quickly acquired British accent was disgusting. The accent certainly does not suit her nor, I am sure, will do much to commend her to her fellow countrymen. Thank God she doesn't sing with a British accent. Wake up Suzanne, New Zealand prefers you as a New Zealander . . . After all Sue, you have been around since the days of The Chicks, you grew up with us . . .

BREAD COMING BACK TOGETHER ?

The Bread split may not be a permanent one after all.

A report from America has it that the group have gone their separate ways for a pre-determined period of six months and that they will come back together as a group at the end of this year.

During the break each Bread member is pursuing separate musical projects, free of any group obligations. Upon the reformation of the group, the first project is expected to be the recording of a new album.

The Young Farmers-Country Girls Club held a concert at the Mangorei Memorial Hall. NEW PLAYCENTRE OPENS

A new playcentre opened this month. This one is situated in Inglewood and is being housed at the rear of the Inglewood Town Hall. On opening day the children found their new environment a little strange and it was expected that it would take a wee while for them to settle down. However, many found new and interesting things to occupy them.
