OUR COVER

We thought it would happen sooner or later... we've got into Injun trouble over Bell Block way. This young brave picked up an arrow through the scalp whilst fighting in the bad lands of Bell Block, otherwise known as Dakota country or the land of the Tiger Moth. He had enough trouble keeping the iron horse out, and now he's gone to war again to keep these iron birds that fly out of Bell Block.

You probably think us daft...and you're right....but we had to say something about this very charming picture of Andrea Brown and Cliff Horrill, who were two revellers at the St. Mary's Coffee Club United Nations Ball.

BACK COVER:

Just to remind you that we do get sunshine here sometimes, we reproduce this colourful picture of the Gothic at Port Taranaki.

New Plymouth Boxing Tourney

With visitors from the boxing fraternity of Tauranga, the programme at New Plymouth recently produced some of the best boxing seen so far this season. Though the local boys didn't fare too well against their more experienced opponents, they did put up some very fine performances.

Below, left: G.Beasley (Ohope) and G.Hart (Hawera) mixed it freely during their bout.

Below, right: Ray Hopkinson (Waterside) ducks from a stinging left from G.Probart (Tauranga).

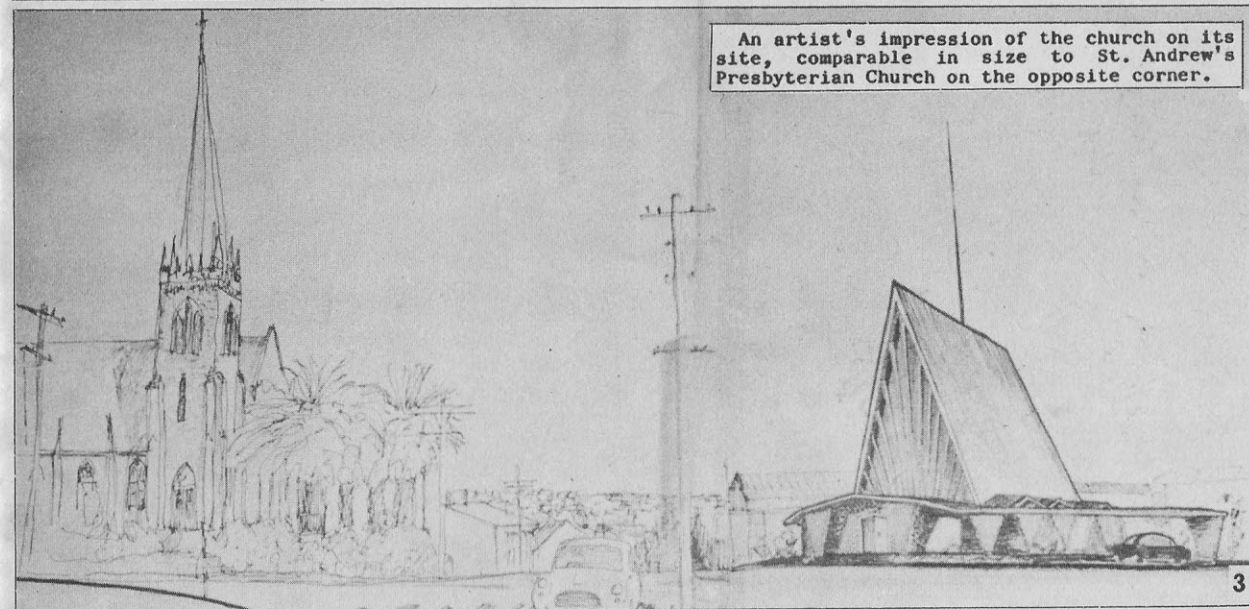

Above, left: So exciting were some of the contests that the spectators joined in with some active advice.

MAGNIFICENT NEW WHITELEY CHURCH

The model of the new Whiteley Church, which is to replace the one burned down in February 1959, is of a most pleasing design, and a striking example of modern architecture. With the roof rising 60 feet from ground level, and a further 30-foot stainless steel spire, the church will conform to the best traditions of English ecclesiastical architecture, neatly combined with the best of contemporary designing.

The interior, right, gives a very distinct impression of greatness, with the lofty roof, and the huge hanging cross at the altar.

An artist's impression of the church on its site, comparable in size to St. Andrew's Presbyterian Church on the opposite corner.

Girls' High School Music Festival

Using the new Assembly Hall for the first time for their Music Festival, the New Plymouth Girls High School's annual production lost nothing of its tremendous popularity. In fact, the new hall seemed a more fitting home for a programme of this type. Musical productions of this school are never dull, and this year's production was even more glittering with a great performance of "Trial by Jury" to climax the festival.

For here are the top glamour boys of Taranaki in all their masculine glory.

Both senior and junior titles went to entrants from New Plymouth. B. Reilly won the senior grade, and G. Roberts the junior.

The "Mr Taranaki" contest was held at Hawera Stadium recently as the climax of a grand evening's entertainment in which the manly arts of weightlifting, Judo, wrestling, and the like were demonstrated.

"On Stage"

A group of young and talented artists have banded together to provide entertainment of a very high standard for the theatre-going public of the province. Their first performance was at Opunake, where the theatre was packed to capacity. They then went on and put on a show at Man-aia, which, like the first show, drew a capacity house. These young artists have a very bright future on the stage, and are a good advertisement for Taranaki's talent.

Taranaki's Life-Saving Rocket Goes into Orbit

Boaties and fishermen can consider themselves lucky that New Plymouth has now got a newly-formed rocket life-saving apparatus team, which comprises members of several local organisations. The team, led by Alec Draper, is now fitted out with the latest in rocket life-saving apparatus. The rocket and other life-saving gear were tried out recently on the Rewa Rewa rifle range, with great success. The rocket head is capable of carrying a line to a distance of over 500 yards, such is its power. This apparatus could save lives in marine, flooding, or mountain emergencies.

Above: Alec Draper has an interested audience as he demonstrates another type of rocket, which created a very loud bang.

Below, left: The rocket leaves its launching base, on a journey of over 500 yards. This type of head will prove most useful in the closer waters of the Taranaki coastline.

Below, right: Whilst out testing rocket gear, this wee fellow was left behind in the cab of a truck, and we thought perhaps he was to be put into orbit. On inquiring, we found out that this was not the case....he was only there as an onlooker.

The life-line is neatly wound round pegs in a special box, in a criss-cross fashion

The pegs are withdrawn to expose a neat pattern of line. It took about 20 minutes to wind this line, and about 5 seconds to empty the box, so fast does it pay out when attached to the rocket.

Toogood at Toko

There's no doubt about the personality of Selwyn Toogood. The Toko Hall was packed to its utmost capacity for a show by the maestro. He clowned his way through a thoroughly enjoyable evening. The only pity was that three successive competitors who got a "bag" and elected to take it, got a booby prize apiece. Despite this, the evening was a huge success. From the proceeds, which went to the Eastern Sub-Branch of the RSA, the Eventide Home will benefit by a large grant, and the War Amputees will also get a share of the profits.

Christine Rowe has a confident smile.... she knew her knees were clean.

During "It's in the Bag" at Toko, Selwyn set out to find the girl with the dirtiest knees. He interviewed many of the girls, to the amusement of the large crowd present. And finding the girl with the dirtiest knees proved a problem, as it appears that they all wash pretty regularly in Toko.

Judy Avey confesses that her knees might not have seen any soap for at least a week, so..

Denise Golder was a bit shy about divulging the state of her knees.

Selwyn made sure that she would be the cleanest girl in Taranaki for a very long time, by presenting her with a lot of the company's products.

Winter Sports

On the only fine Sunday last month, we ventured up the snowy slopes of Mount Egmont. This is our first visit to this part of the mountain, but we must admit that the effort of getting to the ski-grounds on the Manganui slopes was well worth the while.

On this fine sunny morning, the view of the majestic mountain from just above the mountain house, was breathtaking. Never have we seen anything to equal the beauty of Egmont at this point. We can thoroughly recommend a trip on such a sunny morning.

Celebrating 75 Years of Rugby

It was back to the days of the screaming shield fever, for the parade that marked the opening of the Taranaki Rugby Union's 75th Jubilee. Blessed with perfect weather, over 30 floats took part in this, the biggest parade held in Devon Street for many a long day. Spectators along the route were pelted with snow, flour, straw, sweets and anything else that came to hand. It was a happy day, and the crowd joined in and added their pleasure to the day.

City's "Best Yet" Parade

"Best yet" was the verdict of the crowd of several thousands who witnessed this spectacular parade of floats, humorous and serious, ingenious and crude. Nearly every float paid tribute to Inglewood, champions in this, the 75th year of Taranaki rugby.

Left: To lead the parade was Ferdie, who had been spruced up for the season, and perhaps for the shield challenge. Who knows? He might do the trick again.

The Game...and a Good Win to Taranaki

Playing shield-brand football, Taranaki celebrated its 75th anniversary with a grand win over Waikato, 12-6, to retain the Taranaki shield. What a difference this Taranaki side was to the one that was trounced by Wellington a few weeks ago. Taranaki played that tenacious type of football that paid such handsome dividends when they held the Ranfurly Shield, and with this type of play, we can see the shield on its way back from Auckland.

Our photograph above shows part of the 16,500 crowd who enjoyed the warm winter sunshine, whilst watching the sparkling football.

Spectacular, robust rugby was witnessed by the thousands who turned out to see the local team win against Waikato in convincing style.

How to Score a Try

(BY A NPBHS PLAYER)

Looking a beaten team until fifteen minutes from the end, the NPBHS made a grand finale and managed to draw with Te Aute College 11-11. They only just managed to retain their unbeaten record since 1956 in inter-school games.

The pictures, in series, on this page show the try that brought them within striking distance of their opponents, scored by winger R.Hall. Following this try, a further three points were collected when T.Te'o went over to draw the game only a minute from the final whistle.

The referee was there to award the try, whilst the Te Aute defender looks up for its verification

N.Z.'s Oldest W.D.F.F. Celebrates Birthday

The Oakura Hall was packed to capacity recently for the 35th birthday celebrations of the Oakura W.D.F.F., which is the oldest branch in the Dominion. Visitors from many parts of the province were present for the celebrations, which were highlighted by a delightful afternoon tea, and items by the local branch members. Perhaps the most significant thing about the party was the presence of Mrs Helen Harris, who could be dubbed the Mother of W.D.F.F., for it was she who had done so much to get this, the first branch in New Zealand, in operation. Mrs Harris is a Dominion Life Member of this organisation. Honoured guests included many foundation members of the Oakura branch, the Dominion vice-president, Mrs J.K. Lees (Toko) and presidents of other branches throughout Taranaki. Above: is the top table with president Eileen Cleland reading messages of goodwill.
